

CLASS DISCUSSIONS

Your teacher may enable **class discussions** on a post in a lesson.

You can use **class discussions** to ask your teacher a question or to respond to a question that your teacher has asked.

Anything you type or upload is visible to everyone in your class so it should **not** be used to hand your work in to your teacher.

LESSON RESOURCES

A Level Maths Year 2 > Unit 8 - Parametric Equations > 8.1 - Parametric Equations

Watch the tutorial video and complete the worked examples in your workbook (or on paper as a temporary measure).

You should submit the 'Test Your Understanding' questions on Synergy so that I can check them.

Complete the exercises set in the video and use the answers to check your work. I have allowed comments on this post so that you can ask any questions. It is useful to ask them on here because other people might have the same questions!
